Ditch The Ducts. Choose ductless heating and cooling for savings and comfort. Ductless is available for both heating and cooling and are zoned systems, providing modern and efficient solutions for Room Additions, Basements, Sun Rooms, Second Floor Zoning, Home Offices or Converted Attic Spaces. ComEd Rebate up to \$500. www.mitsubishicomfort.com/

Geothermal offers the best tax credit for HVAC systems. Would you like to reduce your energy cost and qualify for a 30% tax credit? Geothermal is the most energy efficient system in the world. This great tax credit expires December 31, 2016. Also maximum \$6000 rebate from ComEd for installation of an Energy Star geothermal ground source heat pump. Use this savings calculator and see how much you could save using geothermal to heat and cool. www.waterfurnace.com/savings-calculator/

No payments Same-As-Cash Loans OR Reduced Interest Loans are available to assist you in upgrading your HVAC system or adding a Mitsubishi ductless system for additional comfort. Loans provided by EnerBank USA on approved credit for a limited time. Call the office for details.

How many offers have you seen for tune-ups? These offers span a wide price range with little information as to the differences. Your Preventative Maintenance program provides discounts on parts and equipment, priority customer service, no overtime charges, no diagnostic fee should you require service, and 100% customer satisfaction on your tune-up.

Get comfortable today. Call to schedule your FREE estimate or Preventative Maintenance appointment. E-Mail your preferred date for service. Saving energy is just a phone call or click away. info@air-ease.com

www.air-ease.com 2016 brought some exciting changes at Air-ease Heating & Cooling. New website blogs, Pinterest site, new trucks and a growing Facebook page.
